As a result of our examinations, we can confirm that no conflict materials („3TG“) are being used in our products which originate from the democratic republic of Congo or adjacent countries Angola, Burundi, Central African Republic, Republic of the Congo, Rwanda, South Sudan, Tanzania, Uganda and Zambia or other conflict areas (CAHRA).

Furthermore, we did not find any evidence of possible violations of general norms and values, such as child labor, abuse of power, money laundering, etc.

We hope that we have informed you to your full satisfaction.
